**HEAT SHRINK GUN  
FOR SOLDER SLEEVES AND TUBING**

A new plastic shrink gun kit that features an adjustable gun and selection of specialty tips for a wide range of electrical applications is being introduced by Malcom Technologies, Inc. of Tiverton, Rhode Island.

Malcom's Heat Shrink Gun Kit features the Weldy® Plus compact 1200 Watt heat gun which maintains set temperature regardless of fluctuations and changes in ambient temperature. Providing adjustable heat and airflow, the gun has a digital LCD display and the kit is supplied with four special purpose nozzle tips for applying solder sleeves and shrink tubing.

Suitable for a wide range of assembly, manufacturing, and maintenance applications, Malcom's Heat Shrink Gun Kit includes a convenient plastic carrying case. The compact 1200 Watt heat gun features a precise closed-loop temperature system with at 180°F to 1200°F range, airflow from 7.0 to 17.5 CFM, an ergonomic pistol hand grip, and operates on 115VAC.

Literature and pricing for Malcom's Heat Shrink Gun Kit is available on request or at [www.malcom.com](http://www.malcom.com).
